

**City of Placerville**  
**Engineering Department**

Date of Notice: March 25, 2025

**PUBLIC NOTICE TO REVIEW AND ADOPT AN ADA TRANSITION PLAN**

The Federal Highway Administration (FHWA) has enacted a requirement that all local agencies with greater than 50 employees or who are slated to receive federal funding must develop and adopt an ADA Transition Plan or be substantially working towards completion of the plan. If the local agency does not have their Transition Plan completed or in progress, the agency risks losing federal funding for transportation projects.

Each agency is required to complete a self-evaluation/survey of its facilities, policies and practices as it relates to the requirements set forth in The Americans with Disabilities Act (ADA). Repair or replacement of deficient facilities must be noted and addressed in a formal transition plan.

This document has been created to specifically cover accessibility within the public rights of way but does include information on the City of Placerville's programs, practices, and building facilities.

The draft City of Placerville 2025 ADA Transition Plan is available for public review starting on March 25, 2025, and concluding on April 23, 2025. The survey results and all comments received will be considered in finalizing the ADA Transition Plan.

The Draft City of Placerville ADA Transition Plan is available on the City's website and hard copies of the draft document are also available at City Hall, upon request. Interested parties are also encouraged to complete an online survey.

The Survey Link and Draft ADA Transition Plan are available at:
