**City Manager’s Report**  
**January 14, 2025, City Council Meeting**  
**Prepared by: Dave Warren, Assistant City Manager/Director of Finance**  
**Item #:**

**Subject:** Consider receiving and filing the annual report for the Traffic Impact Mitigation Fee for Fiscal Year 2018/2019.

---

**Recommendation:**

Receive and file the Fiscal Year 2018/2019 Traffic Impact Mitigation Fee report, and authorize staff to post it on the City’s website.

**Purpose:**

To fulfil the reporting requirements of the Mitigation Fee Act, which requires that certain financial information be made available to the public for each fiscal year in which fees are collected or fee monies disbursed.

**Strategic Plan Strategy:**

Fiscal Stability/Sustainability: 6) Strategy - Meet Financial Commitments and Reporting Requirements, b. Prepare financial reports as required by Federal and State laws and regulations

**Background:**

California Government Code Section 66006 imposes certain accounting and reporting requirements on every local agency that imposes development impact fees. Specifically:

§66006(a) requires that each fee, for accounting purposes, must be segregated from the general funds of the agency and from other funds or accounts containing fees collected for other improvements. Interest on each development fund must be credited to that fund or account and used only for the purposes for which the fees were collected.

§66006(b) requires that for each separate development impact fund that the local agency maintains, the local agency to make available to the public the following information for each fiscal year:

- (A) A brief description of the type of fee in the account or fund.
- (B) The amount of the fee.
- (C) The beginning and ending balance of the account or fund.
- (D) The amount of the fees collected and interest earned.
- (E) An identification of each public improvement on which fees were expended and the amount of expenditures on each improvement, including the total percentage of the cost of the public improvement that was funded with fees.

- (F) An identification of an approximate date by which the construction of the public improvement will commence if the local agency determines that sufficient funds have been collected to complete financing on an incomplete public improvement.
- (G) A description of each inter-fund transfer or loan made from the account or fund, including the public improvement on which the transferred or loaned fees will be expended, and, in the case of an inter-fund loan, the date on which the loan will be repaid and the rate of interest that the account or fund will receive on the loan.
- (H) The amount of refunds made pursuant to subdivision (e) of Section 66001 and any allocations pursuant to subdivision (f) of Section 66001.

A recent provision that went into effect in 2022, §65940.1(a)(1), requires agencies to post the current and five previous annual fee reports on the agency’s website, if it has a website.

**Discussion:**

The City’s Traffic Impact Mitigation Fee (TIM) program has been in place since 1998. Section 8-15-5 of the City Code lists the amount of the fee by unit of development<sup>1</sup>, which is periodically updated to account for inflation.

In accordance with §66006(a), the City maintains a separate account, the Development Impact Fees Special Revenue Fund, to handle fee payments and disbursements related to this program.

The annual report for Fiscal Year 2018/2019, required by §66006(b), is attached to this staff report. We request the City Council to receive and file the report and authorize staff to post it on the City’s website in compliance with §65940.1(a)(1).

**Options:**

- 1. Receive and file the report, and authorize staff to post it on the City’s website
- 2. Direct Staff to take other actions.

**Environmental:**

Not applicable to tonight’s action.

**Cost:**

The report has already been prepared. A minor amount of staff time would be needed to file it and post it to the City’s website.

**Budget Impact:**

Other than a minor amount of staff time, there is no budget impact associated with tonight’s action.
